

Greenhouse gas emissions in individual scopes for KOGENERACJA Group [Mg CO₂e]

2024

- **Scope 1** – direct emissions from sources (equipment, vehicles, machines, boilers, installations) owned or controlled by the organisation;
- **Scope 2** – indirect emissions from purchased electricity, heat and cool, from losses in transport and energy distribution, consumed by the company for own or leased facilities;
- **Scope 3** – other indirect emissions in the company’s value chain, e.g. purchases of goods and services, business travel, commuting, capital goods, i.e. upstream and downstream emissions;
- **biogenic emissions** – emissions related to the natural carbon cycle resulting from combustion, fermentation, decomposition or processing of biological materials.
